KNOWLEDGE MANAGEMENT

ACQUIRE, PROMOTE, SHARE

WHAT DO WE DO?

Let's explore what KM is all about!

PLAGIARISM SCAN

The **KM** unit acquires data through plagiarism scans and university clearance databases. It ensures that the papers being produced by the university are free from an illegal use, and errors.

In order to request for plagiarism scan, clients will have to fill-out our form through (bit.ly/kmc-plagscan) or scan the QR code below:

Plagiarism Scanning Application Form

Good day!

This application form is created for undergraduate and graduate students, faculty members, researchers, and other clients from Pampanga State Agricultural University who want to seek plagiarism scanning of their written outputs.

Reminders:

- The KMC shall use Turnitin and Grammarly as its main softwares; and
- The KMC shall need seven (7) working days to process your document

WHO ARE WE?

The **Knowledge Management (KM)** unit operates to foster an environment where knowledge resources are acquired, promoted, and shared in alignment with quality assurance standards, supporting the continuous improvement and accessibility of the information it handles. By establishing a centralized framework, it creates space and best practices for knowledge sharing activities, making knowledge-based assets accessible to all.

OBJECTIVES

Acquire and organize knowledge resources created by university stakeholders to become purposeful assets of PSAU;

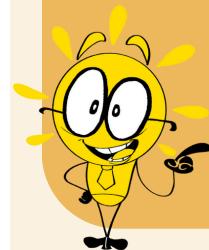

Create space and best practices for knowledge sharing activities, making knowledge-based assets accessible to all; and

Ensure that knowledge resources are acquiescent to existing quality assurance rules and regulations

INFORMATION DISSEMINATION AND AWARENESS CAMPAIGNS

PROMOTIONAL VIDEOS

Through the ICT-R&D Office which the KM currently handles, the unit enhances promotional efforts, producing video content for the clients and services of the office.

INFORMATION DISSEMINATION AND AWARENESS CAMPAIGNS

SEMINARS

The KM also attends workshops and seminars which serve as avenue in promoting its services, likewise, for the capacity building of its staff.

KNOWLEDGE SHARING

ICTV

Through the ICT-R&D Office, the KM produces videos to share information on agriculture and aquatic to reach farmers and fisherfolks.
